

LAWRENCE LIVERMORE NATIONAL LABORATORY ON-CALL SERVICES LIVERMORE, CALIFORNIA

CEL is very proud of the on-call services contract that we have retained since 1990. CEL provides on an average, three multi-disciplined special inspectors daily to LLNL for on-going projects. Our scope of service includes geotechnical engineering, erosion and slope stabilization assessments and recommendations, inclinometer readings, pavement recommendations, various materials testing and special inspection on concrete, steel, soil, mechanical and electrical.

Projects include the National Ignition Facility, Terascale Simulation A Facility, Isotope Sciences Facility, International Security Research Facility, Mocho Pump Station, Energetic Materials Processing Center, Office Buildings 242, 264, 583, multiple re-roofs and seismic upgrades.
